

DESCRIPTION

At CARE, We seek a World of hope, tolerance and social justice, where poverty has been overcome and people live with dignity and security.

This has been our vision since 1945, when we were founded to send lifesaving CARE Packages(8) to survivors of World War II. Today, CARE is a global leader in the movement to eradicate poverty. In 2015, CARE worked in 95 Countries and reached 65 million people with an incredible range of life-saving programs. We also put women and girls at the Center of our work because we know that we cannot overcome poverty until all people have equal rights and opportunities. We seek dynamic, innovative thinkers to further our mission. If you share our core beliefs: poverty is an injustice; poverty is solvable; and together, we have the power to end it, join us.

CARE is seeking a Health Systems Capacity Building Specialist who will provide high quality project management, technical advice and leadership for two Health Projects in South Sudan. The Health Systems Capacity Building Specialist will be based in Parieng County Ruweng state with a technical reporting line to the Health & Nutrition Coordinator and Functional line to the Senior Program Manager, Parieng. S/he will provide technical guidance for all Health/Nutrition projects by supporting Parieng County Health Department to improve quality of services delivered and access to health services. The Health Systems Specialist will co-locate with the County Health Director and focus on the organizing of the health system including infrastructure, health service package, facility management, Staff Capacity Building and community Health Structures in line with the South Sudan Basic Package for Health and Nutrition Services.

Key Responsibilities:

- Capacity Building
- Coordination and partnerships
- Monitoring and Evaluation and reporting
- Resource Management

Qualifications:

- Masters of Public Health or Public Health Managements Administration. Preferably Medical Doctor
- A minimum of 3-year experience in managing health or protection projects in emergency
- Excellent English communication skills (both oral and written)
- Excellent training skills in defined health and nutrition components
- Demonstrated ability to work in a multi-cultural environment and establish harmonious and effective working relationships, both within and outside CARE
